AIRTIGHT, DONE RIGHT: SIMPLE AND EFFICIENT STRATEGIES

DECEMBER 15, 2020

12:00PM–2:00PM EST | COST: COMPLIMENTARY

DECEMBER 17, 2020

12:00PM–2:00PM PST | COST: COMPLIMENTARY

SPONSORED BY

Home Building Crossroads provides residential home construction professionals a chance to discuss challenges and hear solutions from today's leading experts, as well as network with other professionals from their region.

Airtight, Done Right will present small design adjustments — using standard materials already included in the project — that architects and builders can make immediately, at low (or no) additional cost, to disproportionately improve air-tightness and energy efficiency in residential design. We will also cover what these adjustments look like in the field and equip participants to respond to the most common objections to these design changes during the construction phase, especially those related to constructability and cost.

You can choose from one of these two time slots:

December 15 | 12 PM – 2 PM EST | [Register](#)

December 17 | 12 PM – 2 PM PST | [Register](#)
